What is the BBA?

The BBA is the leading trade association for the UK banking and financial services sector. We speak for over 200 member banks from 60 countries on the full range of UK and international banking issues.

What do we do?

Influencing decision makers: We promote a legislative and regulatory system for banking and financial services - in the UK, Europe and internationally - which takes account of our members' needs and concerns and provides an effective and competitive market place in which their businesses can prosper.

Promoting and defending the industry: We engage with government, devolved administrations and Europe as well as the media and other key stakeholders to ensure the industry's voice is heard and to highlight the strength and importance of UK banking.

Who do we represent?

We represent over 200 banks. These member banks collectively provide the full range of banking and financial services and make up the world's largest international banking centre, operating some 150 million accounts and contributing £50 billion annually to the UK economy. Our membership list can be found here: [Member List](#)

We also represent 70 Associate member firms. These firms enjoy many benefits of BBA membership, including access to up-to-the-minute information about key industry developments and also the ability to directly contact BBA policy directors should specialist help be required. Our Associate member list can be found here: [Associate List](#)
